

Protecting **Our** Students
CHILDREN ARE PRICELESS

The SafeSchool REPORTSM

Experience the industry's premier safety reporting engine—the **SafeSchool REPORTSM**. More than a simple assessment, this is a real-time **Institutional Validation Tool** that bridges the gap between field-level behavioral audits and executive-level governance. Our comprehensive ecosystem integrates the proprietary **94-Point Safety ZoneSM (94-PSZSM)** framework with an advanced intelligence model to translate field data into strategic clarity.

This ensures that a secure environment isn't just a goal, but a **verifiable, documented reality**. The SafeSchool REPORTSM provides absolute peace of mind to stakeholders and a clear, actionable roadmap for continuous safety zone optimization, allowing you to track and prove your progress with every assessment. Transform your institution's safety posture from reactive compliance to proactive excellence.

Precision at the Speed of Leadership

The **SafeSchool REPORTSM** eliminates the lag between assessment and action. Through our proprietary digital ecosystem, data is transformed into a professional executive report the moment the evaluation is complete. No more waiting weeks for a physical audit summary—receive your comprehensive report immediately following every assessment, allowing your leadership team to respond to findings in real-time.

Decision-Speed Reporting

Instantaneous strategic feedback delivered the moment assessment concludes

Clarity Without Complexity

Deep-dive, data-driven insights with prioritized recommendations for action

Automated Advantage

Streamlined efficiency removes human error and reporting delays entirely

Integrated 4-Level School Safety Platform

Interior & Exterior Safety Walk-Throughs

Safety starts with the physical environment. Our **94-Point Safety ZoneSM walk-through** transforms complex campus inspections into a guided, high-precision digital process.

Digital Precision

Mobile-first platform for thorough, repeatable assessments.

Defined Zones

Assess safety across perimeter, access points, classrooms, and common areas.

Best-Practice Aligned

Ensures compliance with national safety standards.

2. Proactive Behavioral Diagnostics

Safety begins with the human element. Our cloud-based behavioral assessment tools identify psychological, social, and environmental stressors before they escalate. By prioritizing student well-being, threat awareness, and behavioral indicators, this layer converts the “soft side” of safety into a measurable, manageable component of campus protection.

3. Safety Partnerships & Emergency Coordination

Safety depends on coordination, not isolation. We evaluate and document a school’s readiness to work with law enforcement, first responders, and emergency services. This includes communication protocols, response planning, and role clarity—ensuring schools are not assessing safety alone, but as part of a coordinated response network prepared for real-world incidents.

4. Safety Systems & Equipment Readiness

Technology only protects when it works. Our framework assesses the presence, condition, and operational readiness of critical safety systems and equipment—such as access controls, surveillance, alerting systems, and life-safety tools. This ensures technology investments are functional, maintained, and integrated into the broader safety strategy—not treated as standalone solutions.

The Anatomy of the 94-Point Safety ZoneSM

The 94-Point Safety ZoneSM Assessment is not a generalized overview; it is a high-resolution forensic evaluation of your school's entire protective ecosystem. We go beyond the perimeter with a proprietary framework that deconstructs campus security into 94 distinct safety zones, ensuring that every operational, behavioral, and structural protocol is analyzed with mathematical precision.

1

Total Domain Saturation

94-point multi-dimensional breakdown ensures no blind spots remain in your institutional safety posture

2

High-Fidelity Analysis

Each safety zone undergoes rigorous examination of protocol performance under pressure

3

Bespoke Institutional Alignment

Standardized framework with tailored application calibrated to your unique campus layout

Dynamic Safety ScoreSM (DSS)

A Dynamic Safety ScoreSM for every U.S. school—private by default, public by choice. Measure to improve, not to judge.

The DSS is the industry's most sophisticated metric for measuring institutional resilience. It transforms the findings of the 94-Point Safety ZoneSM into a live, actionable performance indicator that serves as the living pulse of your campus safety performance.

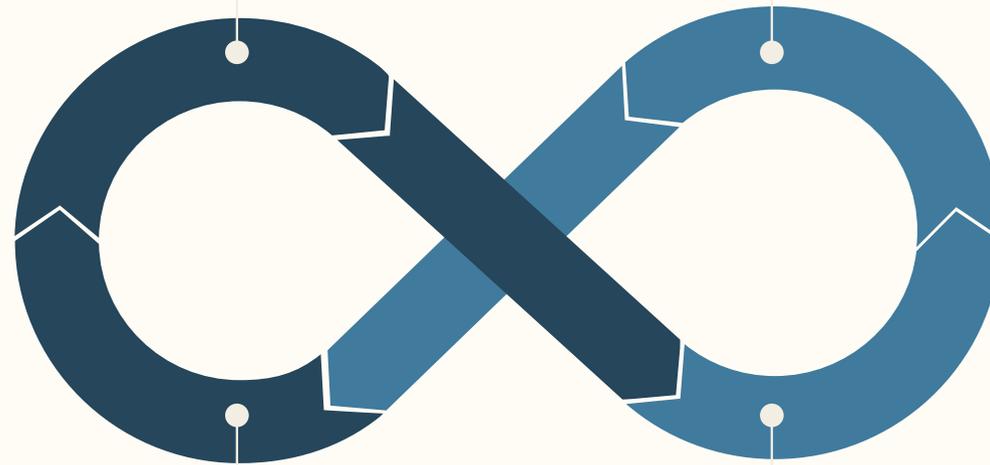

Perpetual Vigilance: Safety is not a static destination. The DSS provides an ongoing assessment of your school's safety performance, ensuring that your protective posture evolves in real-time as conditions on the ground change throughout the academic year.

High-Fidelity Benchmarking: See where you stand instantly. The DSS allows you to benchmark your internal safety measures against evolving industry standards in real-time, providing leadership with a clear metric of "Gold Standard" compliance and competitive positioning.

The Strategic Lifecycle of Institutional Safety

High-Resolution
Assessment

Algorithmic
Analysis

Perpetual
Evolution

Strategic
Placement

The Assess | Score | Improve | ReassessSM Cycle

Scheduled Precision Assessments

Periodic 94-PSZSM evaluations throughout the academic year ensure security data never becomes obsolete

Strategic Implementation

Execute targeted safety enhancements using the high-fidelity roadmap from your SafeSchool REPORTSM

Real-Time Performance Monitoring

Track growth via DSS, providing mathematical validation that investments are working

Optimization & Refinement

Analyze results to refine protocols, ensuring each new cycle begins from a higher standard

Safety is a journey, not a destination. Our trademarked four-stage methodology ensures that your school remains in a state of constant readiness and perpetual growth. By analyzing the results of your progress, we help you refine, adjust, and perfect your safety measures—ensuring that each new cycle begins from a higher standard of excellence. Embrace the **SafeSchool REPORTSM** and take the definitive first step toward a resilient, high-performance learning environment.

Strategic Dividends of the SafeSchool REPORTSM

The SafeSchool REPORTSM is more than a document; it is a catalyst for institutional change. By integrating our proprietary tools, your school secures four critical advantages that transform safety from a compliance requirement into a competitive institutional strength.

Total Institutional Visibility

Gain a high-definition, 360-degree view of your campus with our 94-Point Safety ZoneSM Breakdown, eliminating all security shadows

Accelerated Decision Intelligence

Auto-generated reporting delivers sophisticated analysis and prioritized recommendations immediately following each assessment

Mathematical Validation of Excellence

The Dynamic Safety Score provides objective, data-driven benchmarks to track progress and validate investments

Perpetual Cultural Resilience

Move beyond once-a-year audits with continuous monitoring that embeds safety into daily school community fabric

Join the Vanguard of School Safety

The Professional Alliance

The SafeSchool REPORTSM is more than a platform—it is a community of practice. Elevate your school's safety posture by integrating into our national network of security leaders.

Real-Time Intelligence Stream

Receive immediate alerts on emerging safety trends, platform enhancements, and critical reporting updates delivered directly to your leadership team.

The Knowledge Vault

Access our proprietary library of Gold Standard compliance resources, white papers, and expert-led webinars designed to keep your institution at the forefront.

National Network of Safety Leaders

Join an elite collective of education safety professionals and first-responder partners to share best practices and shape the future of campus security.

Request Your Free School Safety Assessment

We provide schools with expert-designed, four-level safety assessments that deliver clear, actionable insights and ongoing support. Benefit from a meticulously designed evaluation crafted by specialists, with zero financial burden and no obligation. Gain real-time data and a clear, practical path to improvement while ensuring adherence to all crucial safety regulations and standards.

Expert Analysis

Meticulously designed safety assessment crafted by specialists

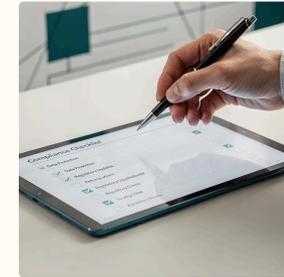

Zero Cost

Full, no-obligation assessment with no financial burden

Actionable Insights

Real-time data and clear, practical path to improvement

Compliance Support

Ensure adherence to all crucial safety regulations and standards

About Protecting Our Students, Inc.

Protecting Our Students, Inc. is a 501(c)(3) nonprofit dedicated to establishing a national, standardized framework for K–12 school safety through objective data, real-time assessment, and shared accountability.
